WALTON
TECHNICAL GROUP

COMPANY PROFILE

ENGINEERING & TECHNICAL SUPPORT

Specialist support that keeps engineering work moving.

Flexible technical capacity. Clear deliverables. Direct communication.

When teams are stretched, progress depends on reliable information, disciplined coordination and access to the right suppliers. Walton Technical Group provides practical, outsourced support to UK engineering and manufacturing businesses - scoped to the work that needs doing.

OUR CAPABILITIES

01 Technical documentation

Structured records that support engineering teams through build, change, operation and handover.

TYPICAL OUTPUTS

O&M packs, drawings/BOM registers, handover files.

02 Project controls & PMO

Proportionate project planning, reporting and action management to keep delivery information current.

TYPICAL OUTPUTS

Schedules, reports, action/risk logs.

03 Procurement & sourcing

Supplier research and coordinated RFQs to make technical purchasing decisions easier to assess.

TYPICAL OUTPUTS

Supplier shortlists, bid comparisons, delivery tracking.

Flexible engagement

A defined project or an agreed recurring allocation, with clear outputs and responsibilities confirmed upfront.

Discuss where you need additional capacity.

If you have a current requirement or upcoming workload, reply to the accompanying email to arrange a short scoping conversation.
